

Destination North Coast

Client Testimonial

Earlier this year I participated in a famil hosted by Destination North Coast across Port Macquarie and Coffs Harbour, and I was thoroughly impressed by the professionalism and dedication demonstrated throughout.

Despite the significant challenge of flooding, my host Belinda managed the situation with remarkable composure and adaptability. She ensured that I was still able to experience key venues in the region and personally facilitated our safe arrival in Coffs Harbour. What stood out most was her ability to seamlessly rearrange flights and schedules for the rest of the group, turning what could have been a logistical setback into a smooth and well-organised transition.

This famil became more than just a site inspection - it was a personal adventure that highlighted both the resilience of the region and the commitment of Destination North Coast to delivering exceptional service. It was an experience I will not forget, and I look forward to working with the team to showcase this beautiful part of Australia to my clients.
